SUMMARY

Computer Science undergraduate specializing in full-stack development using Next.js, Node.js, MongoDB, and WebSockets. Strong problem-solving, collaboration, and communication skills with experience building real-time systems.

PROJECTS

AI-Powered Collaborative Coding Platform | Next.js, WebSockets, MongoDB

Nov. 2025 – Jan. 2026

- **GitHub:** github.com/aman-nagar-8/VibeCodeLive | **Live Demo:** vibecodelive.vercel.app
- Developed an AI-powered classroom analytics system using the Gemini API to analyze students' coding sessions, detect learning patterns, and generate personalized insights and recommendations for instructors.
- Engineered WebSocket-based real-time collaboration for live code editing, chat, and participant management.
- Designed optimized MongoDB schemas to efficiently handle relational data across meetings, participants, and high-frequency session updates.
- Built a secure authentication and authorization system using JWT, refresh tokens, RBAC, email verification, password reset, and rate limiting to protect APIs.

Personal Portfolio with Admin Dashboard | Next.js, MongoDB

Sep. 2025 – Oct. 2025

- **GitHub:** github.com/aman-nagar-8/PortfolioWeb | **Live Demo:** aman-portfolio-web.vercel.app
- Full-stack portfolio platform with a secure JWT-based admin dashboard to manage 10+ projects and blog content
- Reduced page load time by 30% through server-side rendering and SEO optimization via Next.js
- Built real-time blog management system supporting instant content creation, editing, and publishing

School Management System (ERP) | HTML, CSS, JavaScript, Node.js, MongoDB

Apr. 2025 – Jun. 2025

- Created an ERP system managing attendance, fees, and academic records for 100+ students across three roles
- Implemented role-based access control for admins, teachers, and students with secure permission handling
- Designed RESTful APIs and MongoDB schema supporting automated notifications and real-time record updates

SKILLS

Languages: Java, Python, JavaScript, SQL

Frontend: HTML, CSS, React, Next.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Core Technologies: WebSockets, REST APIs

Tools: Git, GitHub, Figma, Postman, Cloudinary, Vercel, Docker

EDUCATION

CDGI College

Sep. 2024 – Aug. 2028

Bachelor of Technology in Computer Science

Indore, MP

- **Coursework:** Data Structures and Algorithms, OOPM, DBMS, Computer Networking, Machine Learning

ACHIEVEMENTS

- Solved 300+ Data Structures and Algorithms problems on LeetCode, demonstrating strong problem-solving skills | leetcode.com/u/amannagar888
- Secured 3rd place at SnowHacks, a 12-hour hackathon held at CDGI, competing as team NextGen Devs by building a real-time full-stack application showcasing rapid execution and teamwork | github.com/aman-nagar-8/Dark_nexus
- Added keyboard interaction support to the Soroban State Lens UI, enabling developers to navigate and explore contract state data efficiently using keyboard shortcuts | github.com/Vynix-Labs/Soroban-state-lens/pull/228
